#### CHEERING HARRISON

AS HE PASSES THROUGH CON-

THE PRESIDENT IN NEW LONDON salutes Fired in His Honor-The Trip to Newport, Rhode Island-Entertained at the Tornedo Station-Kissing the Baby.

New London, Conn., July 5 .- The weather at Woodstock was bright and pleasant this morning and the sun shone for the first time in three days. President Harrison arose shortly after 5 o'clock and filled in time before breakfast by planting a tree in the garden before the Bowen residence, which he pre-sented to Mr. Bowen. Secretary Tracy, Gov-ernor Bulkely, Justice Miller, Senator Haw-ley, Congressman Reed, and other guests assisted at planting. After breakfast the president was driven to Putnam, where the special train, consisting of a parlor car, bag-gage car and engine were waiting to carry him to New London. He was accompanied by Secretary Tracy, Governor Bulkley, Con-gressman Reed, Clarence W. Bowen, W. E. D. Stokes, and Lispenard Stewart. The train left Putnam at 8:05 o'clock. The president stood on the lower step of the car and shook hands with 200 or 300 men and boys while waiting for the train to start. Along the route to New London crowds of people had gathered at the railway stations and

CHERRED AS THE TRAIN SPED BY. At Plainfield a stop was made, and the president did more handshaking. One proud citizen informed the president that his new-born infant had been named Benjamin Harrison.

At Norwith there was a very enthusiastic

At Norwith there was a very enthusiastic demonstration. Bands played patriotic airs, and 2,000 men, women and children, densely packed on either side of the track, cheered heartily as the train drew into the station. The president appeared on the platform and, in response to the manifestation of the crowd, made a short speech. He was introduced to the crowd by Mayor Craudall, of Norwich. He they ked the presence for their presence and corthanked the people for their presence and cor-dial reception, and said he was glad to see that the devotion to American institutions and freedom, which had always characterized the peo-ple of Connecticut, were being perpetuated.

He said:

We have here our line of division, but it does my heart good to believe that in all that is really essential to our great nation we are one in sympathy and one in interests. I bid you good morning.

THREE ROUSING CHEERS

were given for the president. The mayor then introduced Secretary Tracy, Governor Bulkley and Senator Hawley, and the latter Bulkley and Senator Hawley, and the latter two made brief addresses. Mayor Crandall, Hon. Henry Bell and A. A. W. Prentiss, of Notwich, accompanied the train to New Lon-don. The train reached New London at 9:35 o'clock, where there was another demonstra-tion. President Harrison stepped to the rear platform of the car and was introduced by Mayor Tinker, and addressed the throng as follows:

follows:
"Ladies and gentlemen, I assure you that I appreciate this demonstration in my honor, but the plan of travel is such that I can't talk to you as I would like, I bid you good morning."

ON BOARD THE DESPATCH. Cheers were given for the president as he alighted from the train and was escorted to the boat landing and assigned a seat in a ten-oared barge. Following the president were Secretary Noble, Senator Dixon, of Rhode Island, tary Noble, Senator Dixon, of Rhode Island, and the other members of the party, who, with Governor Ladd, of Rhode Island, and Senator Aldrich, were rowed out to the Despatch, in mid-stream. A president's salute was fired in honor of the chief magistrate, and at 10 o'clock the Despatch weighed anchor and proceeded to Newport, where she is expected to arrive at 1:30. Governor Bulkley, who arrived with the party, took leave of them here, and returned to Hartford.

WELCOMED AT NEWPORT. NEWPORT, R. 1., July 5. - The presidential party was very late in arriving this afternoon, It being 3:30 when the United States steamer Dispatch steamed into the harbor. A salute of twenty-one guns was fired from Fort Adams, the bell on the lighthouse at the entrance of the harbor was sung, and the whistles on the steamers in the harbor sounded a welcome, while the yachts dressed ship, and the Dispatch was boarded by Commodore Goodrich, of the torpedo station, and Commo-

dore Scard. dore Scard.

The presidential party, upon their arrival at the station, were greated with a SALUTE OF TWENTY-ONE TORPEDOES, which sent huge columns of water high in the

air and covered the presidential party with spray. An informal reception was held in the machine shop, the dynamo room was inspected, and experiments with gun cotton and tored, and experiments with gun cotton and torpedoes were successfully performed. The party were greatly interested. The president connected the wires for one explosion. The party steamed on the Stiletto to the United States training station. The New Hampshire's bandiplayed "Hail to the Chief." The training ship was inspected; a battalion of naval apprentices was reviewed, the station inspected, and a brief reception was held by the commander and Mrs. Hutchinson. The apprentice boys climbed in the rigging and gave three cheers as the party left on the Stiletto for the city.

The party was driven at once to the state house, where President Harrison, Secretary Tracey and Governor Ladd held an hour's pubhic reception, Mayor Coggoshall making the introductions. They shook hands with 1,500

An incident of the reception was the presentation of a baby rescued from the Johnstown flood, who was kissed by all of the receiving flood, who was kissed by all of the receiving party. A committee from the Rhode Island society of the Cincinnati presented an address to President Harrison, who is a member of the Pennsylvania society. The party was escorted by the Newport Artillery to Governor Ladd's cottage for dinner. The guests included the president, Secretary Tracey, Senators Hawley and Aldrich, Congressman Reed, Governor Bulkeley, United States Supreme Justice Blatchford, Rear Admiral Luco, Commanders Goodrich and Higginson, Colonel Mendenhall, Mayor Coggeshall, ex-Governor W. Ames, and over a dozen prominent city people.

prominent city people.

The presidential party left on the Dispatch about midnight. As it left the harbor a torpedo was exploded, and the harbor was illuminated by electric torchlight.

#### HAY FOR RUSSIA.

Elliot Shepard Grievously |Disappointed Again,

Washington, July 5.—[Special.]—It is stated tonight, with a good deal of positiveness now, that Colonel John Hay, journalist, poet literateur, will be sent as minister to Russia, the position to which Allen Thorndyke Rice was appointed shortly before his death. The report comes from well informed people, and is bably true. Mr. Hay's friends claim that is appointment has been specifically promised

his appointment has been specifically promised by the president.

This will be sad news to Colonel Elliot Shepard, of New York, the great politicoreligio-editor and all-around crank. Colonel Shepard has been hustling with a mighty hustle ever since the fourth of March, in an endeavor to break into the diplomatic service. It came near breaking his heart when another man was preferred to him for minister to Turkey. Ever since Mr. Rice's death he has been besieging the white house and the state department, trying to induce Mr. Harrison and Secretary Blaine to give him the Russian mission. He has wore out much good sole leather in humping himself that he may wear diplomatic honor thick upon it.

Mrs. Ward, Mr. Keating and their nurse girl were dreadfully mangled beneath the glass of the street of the st beneath the wheels of the locomotive and their bodies carried over one hundred feet. The child Elsie was also badly mangled. Her chest was crushed but she lived an hour and a Pieces of the victims' bodies were scattered along the track for a considerable distance. The horse was killed and dismembered.

HOW THE ACCIDENT HAPPENED. Several persons who witnessed the accident say Keating waited until the north bound train passed. He ovidently did not see the south bound express and drove upon the track as it came thundering along. The express train came thundering along. The express train runs from Jersey City to Long Branch, stopping at Red Bank only. The remains were gathered up and taken to an undertaking establishment at Red Bank. Coroner Vande vere, of Long Branch, will hold an inquest

#### ANOTHER WRECK.

Collision Between an Excursion Train and a

Freight.

Dubuque, Iowa, July 5.—A wreck occurred last night on the Chicago and Kansas City road about two miles north of this city. The Grand Army of the Republic had been holding a picnic at Twin Springs, a resort about thirteen miles from Dubuque. Over five thousand people were in attendance. Trains were run every hour to and from the grounds. The excursion train had just landed twelve hundred people in this city and was returning for the remainder, which consisted of about two thousand men, women and children, when it collided with a freight train en route for Dubuque. Only the most meagre particulars are obtainable, and the railroad officials are reticent. It is admitted that one man, Brakeman Ryan, was instantly killed and three others seriously injured. There were a large number of people on the excursion train who sort, intending to return on a late train. It is believed that many people were killed. Had the accident occurred to the south-bound ex-cursion train the loss of life would have been fearful. No satisfactory reason for the acci-dent has been assigned.

#### GETTING IN SHAPE.

North and South Dakota Constitutional

Conventions.

BISMARCK, N. D., July 5.—The constitutional convention convened at 10:45 this morning. The report of the committee on creden-tials was read and a short recess was taken to secure some correction in the report, which then adopted. The election permanent chairman was next business. Mr. Campbell of Stutsman, presented the name of F. B

of Stutsman, presented the name of F. B. Fancher, republican caucus nominee, and it was seconded. W. E. Purcell, of Wahpeton, presented the name of John E. Carland of Bismarck, as the democratic nominee. The oath was taken by delegates before further proceedings. Mr. Fancher was elected on the first ballot, getting 52 votes, Carland 17, not voting 6, total 57 Mr. Carland asked that the election be made unanimous, and his motion prevailed. A committee mous, and his motion prevailed. A committee of seven on rules was appointed and the convention adjourned until 2 p. m., tomorrow. South Dakota.
Sioux Falls, S. D., July 5.—The conven

tion met at 2 o'clock this afternoon and ratified the nominations for officers made by the re publican caucus last night. The committee on rules had not finished its work, and members of the committees are not likely to be named by Judge Edgerton before Monday.

The convention may adjourn over Saturday,

The convention may adjourn over Saturday, or may meet a few proments on Saturday, but no important work will be done. The committee on rules, J. L. Jolly chairman, met this morning and prepared its report on a number of committees necessary—and the number of delegates of which they shall consist. The judiciary committee will consist of thirteen members, the executive of seven and the legislative of twenty-five. There are about fifty other committees to which will be referred all matters pertaining to the constitution. The committee recommended a commission of seven to go to Bismarck to divide the territories properly. Members of these committees will probably be appointed by President Edgerton. The work of the convention will be done largely in committee.

Montana's Convention.

HELENA, Mont., July 5.—The constitutional convention met at one o'clock this afternoon. After brief preliminaries, permanent organiza tion was affected, the following officers and attaches being elected: W. A. Clark, president; W. H. Todd, chief clerk; G. H. Stanton, enri, w. H. Todd, chief cierk; G. H. Stanton, enrolling clerk; Samuel Alexander, sergeant-at-arms; Rev. H. E. Clews, chaplain, all democrats. Seventy-three of the seventy-five member answered to roll call, divided as folows: 30 democrats, 32 republicans, 2 scattering.

#### THE STENCH AT JOHNSTOWN Arising From the Dead Bodies in the

Debris.

JOHNSTOWN, Pa., July 5.-This has been rather a quiet day. Workmen are still tugging away at their endless task, and hot weather is beginning to tell. The surrounding stench in places is becoming unbearable. By a liberal application of disinfectants, however the air is kept remarkably pure. Sax more dead bodies were taken to the morgue today. They were all unrecognizable. Four of them They were all unrecognizable. Four of them were females and one child; the other, a man, supposed to be James Young. Bodies that are found now are in a horrible condition, and Undertaker Henderson suggested today that it would be better.

TO CREMATE THE DEAD that are found now than to bury them. The board of inquiry here has about completed their work and a report will be prepared and presented to the commission at its sitting at Cresson next Tuesday. The work of the board will comprise data upon which bases for the distribution of the relief fund can be made. The report will also embrace a specific recommendation providing for the immediate distribution of \$500,000 in an equitable manner.

Beaten by Tramps.

Beaten by Tramps.

READING, Pa., July 5.—Jos. E. Kaucher and George Wartman, of this city, special officers of the Reading Railroad company, had a terrible fight with two tramps whom they were trying to arrest as illegal cer riders on a coal train at Monocacy station this afternoon. The tramps used pistols Wartman was shot through the log and will probably lose it. Kaucher was shot in the head and was terribly beaten, receiving severe internal injuries. His condition is very serious. The assailants have not yet been arrested.

The Death of a Bridegroom CHARLOTTE, N. C., July 5.-[Special.]-A CHARLOTTE, N. C., July B.—[Special.]—A telegram has just been received at Burlington, announcing the death of Young Stafford, a brother of Dr. Stafford, of that place, in a railroad wreck. near Pine Bluff, Arkansas, Wednesday, Young Stafford had only been married two mouths, and although his wife was on the fated train also, she escaped unburt. Stafford's remains are being brought back to Burlington for interment.

#### THE GREAT MILL

TO COME OFF NEXT MONDAY NEAR NEW ORLEANS.

KILRAIN CONFIDENT OF SUCCESS While Sullivan Men are Offering Odds or Their Man-Two Delegates from St.

Louis-How They are Quartered.

New Orleans, La., J 5.—There appears to be a good deal of deling between the partisans of Sullivan and Kilrain. About the hotel rotundas yesterday there were a good many acrimonious discussions in which the expletives used were more forcible than elegant. There seems to be a disposition on the part of interested parties to get every dollar there is in sight, and the question of admitting even members of the local press is causing some bitterness among respective managers.
It has been decided that each local paper shall be allowed two representatives, and that each of the prominent outside papers will be allowed but one. As a matter of fact, none of the papers care a snap about this matter, but if parties who have engineered this fight imagine that they can fake this community they are reckoning without their host. It has been arranged that no part of the gate money

UNTIL THE FIGHT IS FINALLY DECIDED. and if there is not a square fight it will not be paid over at all, but be returned to the ticket holders. This is the programme of local managers, and they are reliable and will be

very apt to carry out their programme. Sullivan's friends are jubilarit over his condition, and predict an easy victory. Betting is ten to seven on Sullivan. When Kitraln and hiscrowd arrive, however, there may be a

New Orleans, July 5.-The arrival of Sullivan and the enthusiasm exhibited by his friends in this city, has in no wise dampened the ardor of the friends of Kilrain, and instead of detracting from their number, Sullivan's arrival appears to have increased them. It is a noticeable fact that while the central

It is a noticeable fact that while the central portions of the city are disposed to side with Sullivan, the upper sections of the city are largely in favor of Kilrain.

A visit was paid to rooms of the Southern Athletic club today, and quite a number of members were found, all of whom expressed themselves as confident of Kilrain's success in the coming battle. Dennis Butler, a friend of the Baltimore boy, last evening received a telegram from Kilrain, saying that he would be in the city about eleven o'clock tomorrow forenoon. forenoon.

HOW KILRAIN WILL BE RECEIVED. Kilrain's train will be met at a point outside of the city, as was Sullivan's train, and Kilrain, Mitchell Donovan and Murphy will be conveyed in carriages to their quarters at the Southern Athletic club. The rooms which have been set apart for Kilrain and his seconds ure very cool and pleasant, and are situated in handsone two-story frame dwelling adjoining to and owned by the club. They are gallery to and owned by the club. They are gallery rooms, have a southern exposure and are elegantly fitted up. The gymnasium is fitted up with all apparatus for the development of the chest, arms and legs, and has a course for pedestrianism exercises, as well as for swimming, shower and tub baths. Kilrain and his seconds will be able to enjoy greater seclusion than do Sullivan and his trainers, as they will not have to go out into the street at all to go to and from the gymnasium. Kilrain will remain in his quarters until he leaves for the scene of battle on Monday next. Interest in the fight is unabated, and as an evidence of this the Western Union Telegraph company on Thursday night sent about forty thousand words of special dispatches, not including the regular Associated Press reports.

CINCINNATI, July 5.—Kilrain and his party eft this morning on the regular train for New Orleans on the Queen and Crescent. A goodly party assembled at the passenger depot to see them off. Kilrain arrived early and was very animated in his talk concerning a report printed in a morning paper that he had yesterday indulged in nine or ter rounds of beer with his party at a saloon and never decreased the size of his glass. He said it was a mean lie, intended to injure him in the estimation of his friends in the east. He declared that he was in excellent condition; that he had not been fairly treated in this Sullivan town, but that they would all hurrah for him after he had whipped Sullivan, as he proposed to do. Other members of the party denied the drinking story, except that on the assurance of Dr. Wainwright that it would do him good, Kilrain

DID DRINK ONE GLASS OF BEER The party was much troubled this morning appearance in the car of a somewhat well known Ohio detective. The notion seized them that he was going to ride with them to Mississippi and there make an arrest in the hope of getting a reward. They questioned him and found him pretending ignorance of the presence of the Kilrain party, but he afterwards said he was only going to Leadngton to arrest a man. The party cheered oudly as the train moved out, and a faint response came from the spectators.

A Detective Aboard.
CHATTANOOGA, July 5.—The Kilrain party passed through this city tonight en route to New Orleans. Detective Morris, of the Pinkerton force, was on the train, and the impression prevails that he is going to accompany them to Mississippi, and arrest Kilrain, in order to get the reward offered by the governor of Mississippi.

Two Delegations From St. Louis. Sr. Louis, July 5.-Two St. Louis delega-tions to the Killrain-Sullivan fight departed this evening. One party is in charge of Dan Daly, middle weight champion of Missouri, and is looked after by Tom Allen, ex-champion heavy weight, and Tom Kelly, ex-champion middle weight. Kelly has \$2,000 to wager on Sullivan, and offered it at odds of \$100 to \$70 last night without takers.

Governor Lowry Determined. Jackson, Miss., July 5.—Governor Lowry asserts that he is determined not to allow the fight to take place on Mississippi soil, no matter what the effort requires in the way of

ad Ending of a Fourth of July Celebra tion.

DES MOINES, Ia., July 5 .- The celebration at Adair yesterday had a serious termination, early a hundred people having been poisoned by eating ice cream. They were at a general picnic, and after dinner the people by scores were taken with terrible pains. It was found that the ice cream was made in some new cans that the ice cream was made in some new cans and it is thought that sulphate of zinc from the cans entered the ice cream. One physician was poisened, and that left but two doctors to attend to the great crowd of stricken people. Nearly a panic ensued at first, but last evening they were more quiet, and it is thought that all, save possibly one or two, will recover.

PROVIDENCE, R. I., July 5 .- The Goodyear Rubber Boot and Shoe company made an assignment today. The attachment placed on them by the Sears Commercial company on Saturday, was tollowed up today until \$715,000 worth of attachments swamped them. LICKED UP BY THE FLAMES.I

Ellenburg, Washington Territory, Nearly Ruined by a Fire. ELLENSBURG, W. T., July 5.—Two blocks of the best portion of this city are in ashes. Nearly one hundred families are homeless, and what was yesterday a thriving and imposin usiness center is now a mass of ashes and business center is now a mass of ashes and burning cinders. Owing to excitement and confusion that prevails at this hour, it is impossible to ascertain how the fire originated, but it is presumed that it was the result of the celebration of the national holiday, as it was started soon after the inauguration of the display of fire-works last evening.

The flames started on the north side of the city about 10 o'clock in the evening and with a

play of fire-works last evening.

The fiames started on the north side of the city about 10 o'clock in the evening and with a very strong wind blowing from the northeast. The fire dartment, which was promptly called out, could do nothing to check the rapid advance of the conflagration, which within an hour spread to the business center. Help was telegraphed from neighboring towns, but long before it could reach the seens the flames had literally wiped out the heart of the city and had commenced to spread among the residences on the south side. It was not until the main portion of food for the fire had been consumed that there were any signs of any abatement, and it was nearly morning before the firemen secured any result from their tireless efforts. The cessatian of the winds had a tendency to aid the firemen in checking the progress of the fire, and it is thought that

#### THE PREACHER TESTIFIES,

And Tells a Story of a Mystifying Character-

The Howard Libel Case.

JACKSON, Tenn., July 5.—[Special.]—In the
Howard libel cash the plaintiff was placed on the stand today and told his own story of his strange life. He said his real name was G. F. Howard. His father was J. B. Howard. His mother died when he was about five years old. He was educated by a tutor and in the Unimother died when he was about five years old. He was educated by a tutor and in the University college of London. He had one brother, W. J. B. Howard, in India. His father remarried. He could not get along with his stepmother, went to sea under Captain Stanton on the steamer Horatio, went to the east, returned home, ran off, came to New York, and met Fred Howlett there, with whose life his own has been so strangely blended. He, too, had a step-mother, was about the same age, was an Englishman, and had been to sea. They both decided to go on the ship Tigris, in search of the lost Polaris in the artictic region. Finding they would have to poin the navy for three years, they changed their names. The plaintiff passed the examination and went as Frederick Howlett on the voyage. His triend failed to pass. Returning to New York the praintiff went to South Carolina, taught a colored school, then a white school, and practiced law at Walterbore, S. C. In 1870 he went to Robbins, boarded with C. C. Brown, whose wife made advances. He left. She followed him. He was connected with the Ellington riot, and said be thought the United States army authorities were after him, and changed his name to Hewlett, After leaving Lexington, Ga., he separated from the woman, aught school at Beltshafda, Marietta and Atlanta. Won a state-wide reputation as a teacher. He joined the Baptist church, and was ordained to the ministry. He was called to the pastorate of a church here is 1882. The split in the church occurred in 1884. He had been pastor of the Central church till last fall, editor True Baptist from April, 1884, to the close of 1885. He had tried to lead the life of a Christian minister. He will be cross-examined tomerrow.

#### MRS. MAYBRICK.

Mutual Reserve Fund Life Association Advances Her \$1,000.

New York, July 4.—[Special.]—President Edward B. Harper, of the Mutual Reserve Fund-Life association, cabled yesterday to his European agents to pay \$1,000 to Mrs. Maybrick, the American woman who is accused of having poisoned her husband, although no proof of death has been received by the company. Mr. Maybrick carried a \$25,000 insurance policy in the Mutual Reserve company, \$10,000 in favor of his brothers, and Mr. Harper learning from the first prothers, and Mr. Harper learning from \$10,000 in favor of his wife and \$15,000 in favor of his brothers, and Mr. Harper, learning from the press that Mrs. Maybrick's attorneys had withdrawn from the case owing to her having no money, sent the \$1,000 in order that she should have a fair trial. His action in the matter is the more significant since the insurance payable to her will be void in case of Mrs. Maybrick's conviction. Maybrick's conviction.

Another Arrest in the Cronin Case CHICAGO, July 5 .- At a late hour last night several detectives from the Central station took a prisoner to Harrison street station and took a prisoner to Harrison street station and locked him up in the witness ceil. The greatest secrecy was observed by these officers, and from their actions it was evident that they had made an important arrest. They refused to say who their prisoner was or where he was arrested, but it is known that the arrest was made in connection with the Cronin case. It made in connection with the Crouin case. It was also said that the prisoner was none other than the man who drove Cronin from Conkling's to the Carlson cottage.

The man was released after being in close

confinement twenty hours, notwithstanding reports that he bore a striking resemblance to Patrick Cooney, "the fox." It turns out that the odd prisoner is a Frenchman named Frank

BUCKET SHOPS WIN.

THE CHICAGO BOARD OF TRADE FLOORED BY THE COURTS.

QUOTATIONS MUST BE MADE PUBLIC All the Judges Agree on a Decision That the Board Has No Right to Withhold Quota-

tions-What Will the Board Do?

CHICAGO, July 5 .- The board of trade received a pretty hard rap this morning by a de-cision of Judges Horton, Tuley and Collins, sittin en bac on motion of the board's attorney to dissolve a preliminary injunction to prevent the board from withholding its quotations from bucket shops. The judges deny the motion to dissolve the injunction on the ground that market quotations are of such importance to the public that they should be considered public property and that if the injunction were dissolved the tendency would be to create a

monopoly of the big board.

Each of the three judges delivered a separate opinion, based upon the particular case before him; but the cases were all precisely alike in the points involved and the conclusions reached by each of the judges were the same, to wit; that while the board continues to furnish quotations to any one, it must furnish them to every one willing to pay for them.

When the judges had finished their pro-nouncements Judge Smith, attorney for the board of trade, arose and moved for a modification of the injunction. He was not sure as to what the beard would now do. It might open the floodgates and let out all the quota-tions, or it might determine to quit the busi-ness altogether. He wanted the injunction to read so that the board would be at liberty to do either. As it was the injunction prevented the cutting off of all.

Judge Tuley consulted briefly with his col-leagues and approused that it would be time

Judge Tuley consulted briefly with his colleagues and announced, that it would be time enough to decide that when the board had once made-up its mind to what it is going to do. He himself thought it a question, and a serious question, too, whether the board could cut off the public from news of its market quotations altogether. He thought it possible that news-gatherers

MIGHT COMPEL THE BOARD to admit them to get news. Subsequently the directors of the board of trade met to deliberate on the problem of what to do next, but after a long session adjourned without decidand the table assisted adjourned without decading on any plan of action. The matter will come up at the regular meeting on Tuesday next. The bucket shop men are pleased, of course, and assert confidence in their ability to force the board to furnish them quotations.

#### BUSINESS OF THE WEEK. A Review of Trade In All Its Branches-

Failures, Etc. New York, July 5.—R. G. Dun & Co.'s review of trade for the week says: "Though there has been the duliness usual in a holiday week, business has been fairly maintained in volume and is gradu-ally improving in prospects. The inli trade is ex-pected to commence earlier than usual and local indications in all parts of the country lead dealers to anticipate an active season. June has been a month of exceptionally large transactions, and while speculation has sorgwelled bank exchanges at New York that they exceeded last 'year's by 35 per cent, and at Boston, Fhitadelphia and Chicago so that they showed a gain of 15.7 per cent, the inso that they showed a gain of 10.7 per cent, the increase at all other clearing houses also averaged 14.5 per cent. The prices of commodities, in spite of the rise ta some speculative markets, have, on the whole, fallen during the month about 2 per cent, and are now hardly 1½ per cent above the lowest average recorded. The monetary situation, though threatened by large exports of specie, remains as yet undisturbed. Nevertheless, the stock market, by many considered an indicator of future, has been sinking. It is felt, too, that the rise stimulated by sudden advances in trust stocks was not of a substantial character. But there has been much coefficience that the enormous half scarly dishursements by the government and corporations would cause new demand and advance in better securities, and while the movement that for in July here a preserved. demand and advance in better securities, and the movement thus far in July has not an expectations, holders are still topeful

Half yearly raturn of failures shows a relatively larger increase in New England than in any other section—about 28 per cent—and next in the trans-Mississippi region this side of the Rocky mountains, about 20 per cent. In the middle states increase has been but 4½ per cent, thence to Mississippi about 3 per cent, and at the south about 3½ per cent. Against the general increase of 8 per cent in numbers, there is a decrease of 3½ per cent in aggregate liabilities. The losses incident to speculation have been heavy, but as to the number of failures, probably the disappointing trade of the last open winter was most important cause.

Markets have not changed greatly during the broken week. Whent is about three-quarters of a cent higher, owing to accounts of injury from prolanged drougth and heat in Bakota and Mannesota, where heavy rains have just improved the outlook considerably. Other crop prospects continue favorable, but in some quarters too much rain has injured corn, and the price is one-half cent higher.

Injured corn, and the price is one-mail cent inger. PORK PEODUCTS ARE WEAKER, and dairy products are coming forward in immense quantities, so that prices are decressed. Leather does not change, but revised quotations of wool for the first of July show an average advance of about one cent per pound, and it is becoming a serious question whether the hopes of improvement in manufacture may not be defeated by an advance in the interval which may keep many of the mils idle. At present many are working short time, and buying seems only sufficient to meet immediate needs. The price of cotton has advanced three-sixteenths in part because of the scanty supply of desimble grades, and later returns induce a general modification of estimates as to last year's crop. §

THE IRON MARKET REMAINS STRONG in tone, but no further advance in prices has been realized. Southern from is still offered in large quantity at \$1.6.50 for No.1, and the demand for manufactured from is less active. Sales of about 1,000 tons of steel rails appear to have been on a basis of \$28 at eastern mills.

The monetary prospect is clouded by exports of \$17,507,640 gold and \$1,135,454 silver from New York alone stuce June 1st. In consequence, circulation of all kinds has been reduced \$17,000,000 in June, and, though the aggregate is even now \$8,000,000.

arion since June 18t. In consequence, circulation of all kinds has been reduced \$17,000,000 in June, and, though the aggregate is even now \$8,000,000 larger than a year ago, it is feit that a continued outgo in July would be apt to cause a pressure in September. New York tanks reported last week a surplus of only seven and a half millions and the actual striplus probably was not over six millions, which is not a larke preparation for an active fall demand. The volume of foreign trade has been large with experis for five weeks, exceeding last years by 17 per cent, at New York, while imports show an increase of four per cent, but excess of imports show an increase of four per cent, but excess of imports show an increase of four per cent, but excess of imports are hastened by the cut in castern bound rafi rates, or foreign holders cease to realize on securities the outgo of gold may continue. Thus far treasury disbursements for the week exceeded receipts by only \$300,000, but will be much larger for the week to come.

Charleston Feels the Necessity of a Protest

Against McDow.
CHARLESTON, S. C., July 5.—[Special.]—It begins to look now as though McDow's "little indiscretion," which he so confidently expected his friends to overlook, may give him more trouble than he anticipated. The publication of an interview with Clerk of Council Simmons, in which he states that the best people or an interview with Cierk of Council Simmons, in which he states that the best people in Charleston indorse the verdict, has raised a storm of indignation in the community that will probably find vent in a public indignation meeting. The key note of this sentiment is voiced in a letter published today, and which, it is said, is written by a prominent elergyman, in which the writer says: "As a law, abiding citizen I carnestly protest against any official of the city government undertaking to represent the sentiment of the community on this subject. I believe that this verdict filled the hearts of many of our people

WITH GRIEF AND SHAME;
that it is regarded as a blow to our good and an injury only equaled by some of those afflictions with which nature has visited us."

The publication, too, of the editorial comments of the newspapers has had a very perceptible effect. The newspaper here which has detended McDow, from the very day of the murier, and is the exponent of the MoDow element in the community, is out in an editorial denouncing these editorial comments. There are a class of writers at the north who selze upon every incident which may be construed injuriously for our section to frantically exclaim that northern capital will not go south unless thing, are altered. All those individuals who desire to place their capital out on purely sentimental grounds would very probably find abundant opportunity in the north, and repetition of this threat has simply become wear some.

Dr. McDow is also in trouble with the medical society of which he was elected a member only a month or so before he slew Capitain Dawson. It is said he sent his letter of resignation on Monday last, but that the society refused to receive it, the intention being to nation on Monday last, but that the society refused to receive it, the intention being to expel him. The letter was laid upon the table, but it will probably be accepted later on, in order to avoid the tiresome process of going through the process of a trial which is required by the society's constitution. It is rumored, too, that several members of St. John's Lutheran church, at which McDow attended service Sunday last, have severed their connection with the church.

Macon, Ga., July 5.—[Special.]—In respect to the denial of the Perry people that no woman has been allowed to enter Tom Woolfolk's cell, The Constitution correspondent can only assert positively that Judge Gustin received a letter announcing that a colored female was allowed to visit Woolfolk and remain with him four hours. THE ILLEGAL MANNER IN WHICH HE HAS BEEN HELD.

He is Adjudged a Lunatic, and Will Spend Milledgeville.

Macon, Ga., July 5.-[Special.]-It seems that the Woolfolk murder with its attending sequences will never come to an end and will forever live in the annals of time.

This morning was the time set for the trial of Jack DuBose, the notorious negro who was arrested on a warrant sworn out by Tom Woolfolk before Justice Wylley on May 27th, charging DuBose as principal in the second degree in the murder of the Woolfolk family on that dreadful night, August 6, 1887, being present, aiding and abetting by keeping watch at a distance. And who in all this world is so well qualified as Tom Woolfolk to know who was present on that dreadful occasion?

was present on that dreadful occasion?

When Justice Wylly called the case no lawyers were present, either for the state or the defendant. Justice Wylly received a note this morning from Attorneys John C. Rutherford and Minter Wimberly stating that it would be impossible for them to be present, as they were compelled to be in Atlanta on important business. Mr. James L. Anderson, who had been appointed by Justice Wylly to defend DuBose, sent word that he was engaged by other pressing business, and could not attend.

Justice Wylby had grown tired at DuBose being kept in jail so long without trial, and determined to bring the matter to some kind of a head. Though DuBose was arrested weeks ago in Alabama and brought to Macon, where he remained quite a while in the custody of Detective Shackelford, there had never been any entry of arrest made on the warrant until today, when Constable C. Justice Wyly had a long talk with DuBose this morning, and the justice became thoroughly convinced that DuBose was of unsound mind, and he decided to dismiss the warrant and apply to the ordinary for a writ of lunacy. The writ was duly issued, and this afternoon at half-past four o'clock DuBose was tried at the jail on the writ and was declared to be of unsound mind and a fit subject for the lunatic asylum.

A Nol Pros for Franklin—Attempt at Rape—
John Tracy.

Macon, Ga., July 5.—[Special.]—The first case taken up in Bibb superior court today was the state vs. Ben Franklin for attempt at murder. Franklin is the negro who it is alleged about a year ago, at night, foreibly entered the residence of Mrs. John B. Cumming.

Franklin was tried at a recent term of court and a verdict rendered against him, but a new trial was granted, as the judge did not think the identification of Franklin as the real perpetrator of the deed was sufficiently estabpetrator of the deed was sufficiently estab-lished. Today the case was not prossed.

ATTEMPT AT RAPE.

The trial of Eugene Battle, alias Eugene Birdsong, was then commenced, charged with attempt at rape on the person of little Almo Wilson, a white girl, aged about seven or eight years. The offense was committed in apartments over the Fair store, on Newberry street, where Almo's parents reside. Wilson was a colored servant in the employ of another family who occur

Wilson was a colored servant in the employ of another family who occupied a part of the building, and attempted the outrage in a retired portion of the house. Solicitor-General Felton represented the state; Stone & Reily defended the prisoner.

THE JOHN TRACY CASE.

Some few mouths ago Mr. John Trrey shot and killed a negro named Sam Grant, who with other negroes attacked Mr. Tracy and some friends with rocks and pistols. Mr. Tracy fired twice. One of the bullets strack Sam Grant in the arm and severed a main artery, from which he bled to death. Mr. Tracy was arrested ane released under a bond of \$5,000. The trial of Mr. Tracy has been postponed three times by the state. Mr. Tracy thought certain his case would come up to-day, but it was again postponed. He says he is anxious for a trial.

MAYSVILLE, Ga., July 5.--[Special.]—The rains have fallen throughout this section every day for one week, and the farmers are beginning to think the grass will take their crops if they are kept out of them a few days longer. In places the rains have been heavy and destructive. One afternoon, a few days ago, something

something

came down upon Rev. J. D. Gunnell's farm, a few miles from here, and almost destroyed his entire corn crop and washed away about one hundred bushels of oats. A little further down the stream the rushing tide carried away three hundred bushels of eats for Mr. C. O. Brock. Still further down the stream on the old Mayfield place, the rising waters carried away seven hundred bushels of oats for Mr. Gabe Martin. Dr. J. W. Sewell seemed to have a warning that

for the day before he put six cradles and nine binders and two wagons hauling his oats to the hills, and succeeded in getting most all of them out of his bottoms, and finished the next day in water waist deep. If he had waited one day longer his entire crop would have been destroyed.

Where He Was Arrested for a Murder Committed in Terrell County.

Dawson, Ga., July 5.—[Special.]—Sheriff T. R. Thornton, of this county, left Dawson last Sunday\* for Taylor county, Florida, to secure the arrest of Perry Kitchens, who, in a family fued a few miles from this place, killed his father on the 10th day of last September and escaped. Sheriff Thornton had, since the beginning of his term of office, in January, been quietly seeking his whereabouts, and his efforts were successful.

Sheriff Hurst, of Thomas county, accompanied him, and together with the sheriff of Taylor.

Sheriff Hurst, of Thomas county, accompanied him, and together with the sheriff of Taylor county, Florida, they found their man in that county, about fifteen miles from the coast. Kitchens surrendered without resistance, and without the security of handcuffs accompanied Sheriff Thornton to his place, where he arrived today and was lodged in jail. He demonstrated much remorse of conscience during his journey, and is evidently conscious of the enormity of his crime. This was a good piece of detective work on the part of Terreil's sheriff.

The Closing Exercises of Monroe Female College-Points of Interest Around an Interesting City.

FORSYTH, Ga., July 5.—[Special.]—Our town has been alive with strangers during the past few days. Never has old Mouroe Female college (second in the existence of female college) leges) turned out from her classrooms better specimens of intellectual culture than those who graced its rostrum during this commencement. And never has the exercises been more pregnant with successful advancement and progress than during this commencement occasion. Georgia has a right to feel proud of her institutions of learning, among which none can rank higher than this one. More than an hundred and twenty-five pupils were in attendance during the past year. The corps of instructors is complete in all the collegiate branches, including art, vocal and in-strumental music and the sciences. New apparatus have been added to the latter departpartment, and the institution is now in as good shape and offers to her pupils as good facilities as any institution of its kind in the land.

was preached at the college chapel by Rev. Robert Harris, of Celumbus. "The Voice of God," a text at once suggestive of itself, was beautifully elaborated and presented in a masterly mauner. The prize reading contest of the sophomores comprised the exercises of Monday. It is fitting to say that the programme was as evenly and entertainingly presented as any it has been the pleasure of your correspondent to hear. Some of the recitations reached a degree of remarkable excellency.

The W. F. K. and Zeta societies gave a splendid and entertaining entertainment Monday evening. The "Old Fashion Rehearsal" was excellently presented in costume of an hundred years ago. The recitations were in keeping with the occasion, and the songs that served for courting purposes when our grandfathers were invited to "light," were rendered well. The entertainment was a novel and planting occasion.

pleasing one. Reading by the juniors occupied the morning of Tuesday. The essays were of a high order, and showed that the young ladies have been and showed that the young ladies have been carefully trained and were well acquainted with their respective subjects. This class is said to have averaged the best standing of any class that he yet graduated from this institution. The first honor was awarded to Miss Florence Bramblett, second awarded to Miss Florence Bramblett, second honor to Miss Mamie Toney, two estimable young ladies of this place. Miss Jeffie Thomas received the medal for best progress in instrumental music, and Miss Tillon Bacon, of Amouskeg, etho medal for best progress in vocal music. The junior medal for composition was awarded to Miss Dora Kittrell. There was a tie between the four judges as to the successful contestant. Miss Dora Kittrell. There was a tie between the four judges as to the successful contestant for the sopohomore medal for reading. It was decided by the faculty to give one to each young lady, accordingly two first prises were awarded one to Miss Fannie Grierwood and one to Miss Sallie Bacon. President Asbury delivered his anual address to the graduating class in his usual happy manner; it was well conceived and full of good wishes-for those who now leave the college to return no more. The audience were prepared for a treat at the close of the exercises and it was extended to them in a very happy style by the Rev., close of the exercises and it was extended to them in a very happy style by the Rev. THE TOWN PROGRESSING.

Our town is on a substantial boom. Progress, progress is on the lips of every-body. The organization of a stock company for the erection of a cotton seed oil mill brought about the purchase of the "old rock mill." This is now the property of the Standard Oil cempany, which it seems desires to crush out our homelenterprise by lively competition. But all the stock in the Forsyth oil mills is taken, and by home capital, a site has been purchased just across from the depot, the machinery is ordered and the contract to have the mill in operation by October 1st, is complete. So Forsyth will add to its list of manufacturing enterprises, at least, one oil mill, and two if the Standard carries out its threat and erects one also. The safe indications point to this place as the coming town in middle Georgia in a manufacturing point of view, An oil mill, a canning factory, two cotton factories an evaporator, all in one year, and all the stock taken at home. Lookout for Forsyth. Watch her steady growth. She is going substantially forward, and her own people and capital are doing the work.

THE ATKINSON EILL.

Mr. Atkinson's bill providing for a girls' industrial school is one which will prove of great interest.

The bill provides that there shall be established, in connection with the State university, and forming one of the departments' thereof, a college for the education of white girls, to be known as the "Georgia industrial College." Said college shall be located, equipped, and conducted as hereinafter provided.

There will be a bond of five directors.

"Georgia industrial College." Said college shall be located, equipped, and conducted as hereinafter provided.

There will be a bond of five directors. When the said directors have selected a location to the Georgia Industrial college as hereinafter provided, the governor shall appoint from the county where located two additional directors have been considered to additional directors. The said board shall have power to select from their number a president and a secretary, and to prescribe rules and regulations for their government. These directors will have charge of the selection of a site, the rection and equipment of the necessary buildings.

The gist of the bill is contained in the sections which provide that the said college shall be a part of the University of Georgia, and under the control and management of its board of trustees. Said trustees shall have authority from time to time to add such special features to the college, and to open such new departments of training and instruction therein as the progress and advancement of the times require. They shall also have power and authority to ordain and establish such rules and by-laws for the regulation of said college and the teaching, training and governing of the students, not inconsistent with this act, as in their onlinion may be proper to secure the success of said college. The chancellor of the University of Georgia shall have general supervision of said Georgia Industrial college, and its officers shall be selected and their salarics fixed either directly by the board of trustees of the University of Georgia, or through the board of directors, as herein provided.

That the board of directors hereinbefore provyided shall become, as soon as said college.

urned over by them to the board of trustees of the university of Georgia, a local board of directors for said Georgia Industrial college, with right of succession as hereinbefore provided, and all the powers necessary for the immediate contrel, supervision and management of said college subject to board of trustees of State university, of which body they shall be ex-officio members.

That said board of directors shall have full and ample powers subject to the restrictions and limitations herein made to establish and mathath a first-class college for the education of white girls, at which such girls may acquire a thorough education. Said college shall have a normal department for the thorough training of teachers, and an industrial department in which shall be taught telegraphy, stenography, typewriting, photography, bookkeeping, domestic economy, cutting and making dresses, printing, industrial and decorative art in its practical application, and such other practical industries as may tend to fit and prepare girls for practical life in those occupations which are consistent with feminine refinement and modesty. No girl shall be allowed to take a course in said college, who does not receive instruction in at least one industrial art.

That the board of directors shall appoint

sistent with feminine refinement and modesty. No girl shall be allowed to take a course in said college, who does not receive instruction in at least one industrial art.

That the board of directors shall appoint a president and professors of said college, and such other odicers as they think proper, and shall make such laws, rules and regulations for the government of said college, its officers, students and employes as they may deem advisable. They shall decide the course of study and instruction into departments so as to secure thorough education and the best possible instruction. Said directors shall regulate the rates of tuition together with the course of discipline necessary to enforce the initial discharge of duties of all officers, professors and students.

That said board of directors shall apportion to each county its quota of the scholars which can be received into said college on the basis of the white population (according to the United States census taken just preceding each apportionment) in the state and several counties. After giving notice for not less than two weeks, the board of education in each county shall ascertain which of the applicants from their respective counties are qualified to enter said college, and select from those so qualified to enter those to be sent from their respective counties and certify such selections to the president of the Georgia Industrial college. Such appointments shall be made under the regulations prescribed by said board of directors, who shall also provide for the disposition of scholarships not taken by the counties intiled to them. In all selections of scholars preference shall be given to the daughters of deceased and disabled confederate soldiers who are otherwise enable to secure a thorough education.

The bill also provides for a drawing to decide the terms of office of the directors, and that all appointed subsequently shall be appointed for terms of six years.

SENATOR BOYD TALKS

About His Co-education Bill—The Boys and Girls Should Be Together.

Senator Boyd, of Dahlonega, who introduced the co-education bill, yesterday was asked:

"What led you to introduce such a bill?"

"From experience and long observation I have seen the necessity for higher education for both male and female—higher and more general education for the people of our state. There have been vast sums of money expended by our people for the education of the males in which the other sex had no participation. It is admitted by philosophers and divines and sustained by the history of the past that four-fifths of the great and good men of the world received their impressions from their good mothers. If this be true, hence the necessity of spending more money for the training of the women of the country. No provision has heretofore been made for them by the state, in the appropriation or expenditure of money, except a small sum to the common school fund, in which the opposite sex equally participates.

"The State university and its branch colleges have been mainly supported for the benefit of the males. Natural equity would require that the girls of our state should have an equal chance with the boys for a good education. In other words, I think we should give the girls a fair chance with the boys in the battle of life and fit them to ornament their position in society in the higher civilization to which we are advancing." About His Co-education Bill—The Boys and Girls Should Be Together.

are advancing."
[]"What effect would co-education have on the boys and girls?"
"I am decidedly in favor of mixed schools, both high and low. They have a tendency to refine the deportment and excite a generous emulation in the acquirement of knowledge. I am pronounced in my opinion on this subject. It would help both sides."
"Suppose the boys should fall in love with

It would help both sides."
"Suppose the boys should fall in love with the girls?"
"Then let them marry. It is a very good place to select a wife or a husband."
This experiment has been tried in several of the northern colleges, where heretoforeonly male students were admitted, and in every instance the officers of those colleges report moral and intellectual progress among the students.

DR. FELTON TALKS.

He Explains the Provisions of His Bill and His Position.

"The bill." said Dr. Felton, speaking of his bill for higher education, "explains itself. The common school fund now is \$150,000. On a basis of \$30,000 monthly rental the common school fund, by the terms of this bill, is to be \$180,000. The general assembly will no doubt order \$35,000 the minimum monthly rental, and on that basis the school fund will be \$210,000. If the road leases for \$40,000 per month, as it can and should do, the common school fund becomes \$240,000. I think that every friend of the common school system of Georgia should give the bill his hearty support.

"The bill gives to the higher education of

friend of the common school system of Georgia should give the bill his hearty support.

"The bill gives to the higher education of white boys and white girls—on the \$30,000 basis—\$180,000 annually. Our forefathers built the road. The road has paid for itself within the past twenty years, and the present generation have not invested one dollar in it, and this proposed disposition of the money does seem just and righteous every way.

"These branch colleges, located in every congressional district, will give to hundreds of white boys and white girls in those districts the advantage of a collegiate education, which they would never otherwise receive. The technological school is doing, and will continue to do, work beyond estimated value for the young mechanics and laboring men of this state.

the young mechanics and laboring men of this state.

"The industrial school for girls is an act of simple justice to the future wives and mothers of this state. They must train our citizens for the duties of life, and in doing this they construct the fortunes and characters of Georgians for all time. The prize scholarships ereated by this bill bring a university education within the reach of the most worthy and competent young man of each county in the state. The beneficiaries of this fund must be unable, financially, to maintain and support themselves at the university. If the bill is successful in passing, this provision of it will do more for the education and the material prosperity of Georgia than any other act that ever

more for the education and the material pros-perity of Georgia legislature.

"The passage of this bill will not increase the taxation of our citizens one cent. The in-creased taxable values of our state, growing continuously, will more than meet the defi-ciency of \$150,000. That is money invested in the brains and character of Georgia. I verily believe it will make Georgia what we have so long boastingly claimed for it—an empire state in wealth, intelligence, moral culture, and all the qualities that go to make up the and all the qualities that go to make up the character of a glorious people."

character of a glorious people."

Your House on Fire.

Not the house of wood, or brick, or stone, in which you live, but your bodily tenement may be in terrible danger from smouldering fire which you make no effort to quench. The great danger from impure blood is that it debilitates the system, and digestive organs grow weak and inactive. Hood's Sarsapartila combines the best kidney and liver invigorators, with the best alteratives and tonics, all from the vegetable kingdom, carefully and understandingly prepared in a concentrated form. It purries, vitalizes, and enriches the blood, and tones up the system, giving the whole body vitality, and effectually guarding it against the attacks of disease.

ATLANTA, GA., JULY 6, 1889.

#### Two Newspapers.

The New York World is a reckless news paper. It says: Some idea of the nature of journalism in th

some idea of the hadre of jointains in the south may be gathered from the fact that the Charleston News of last Sunday had no editorial reference to the verdict in the McDow case. The fact was quietly announced under this heading:
"On Trial for His Life—Dr. McDow Acquitted of "On Trial for His Life—Dr. McDow Acquitted of the Murder of Captain Dawson." Here was a newspaper whose editor and proprietor had been foully assassinated and his slayer pronounced innocent absolutely afraid to lift up its voice to protest against the injustice. And yet Dr. McDow is threatening to take his shotgun and administer a reproof to the press of his city because it has not treated him with the respect due his position, dentite high specifies.

What would the World have the News and Courier do? Would it advise a newspaper to prejudice public opinion in advance of a trial, and then, if disappointed in the verdict, abuse the judge, the lawyers and the jury?

A reputable newspaper cannot pursue such a course in a decent community. Undoubtedly the Charleston paper was bitterly disappointed in the result of the McDow case, but, unless it had conclusive evidence that fraud or improper means were employed to secure the verdict, it would not be justified in denouncing the jury and the sworn officers of the court.

By the way, how does the World know that its Charleston contemporary is "absolutely afraid" to lift up its voice to protest against the injustice of the verdict?

One point in the trial of the case might very properly be severely criticised, and that is the preponderance of negroes on the jury, but the criticism should not be confined to the McDow case alone—it should take a

wider range.

The World has taken a strange view of this case. It started out in a complacent mood because the jury had seven negroes on it, and now it abuses the white people of South Carolina for something which they are not responsible for, and which they could not prevent. All this is very unjust and unworthy of a great paper.

#### An Outspoken Preacher.

The editor of the Arkansas Churchman takes a gloomy view of the religious situa-

The Churchman declares that our worship of Mammon is as real and vicious as ever engaged the pagan devotion of any people, and says that a period of spiritual eclipse, of terrible apostasy, threatens Christendom.

Although our contemporary firmly be lieves that the cause of Christ will ultimately triumph, still it recognizes the fact that it is possible for a nation to turn away from God, and suffer all the bitter consequences of apostasy.

There are other unpleasant things that embitter the life of this gloomy editor. His plain way of calling attention to the dangers of the age has made him enemies, and he has been warned to beware of assassina-

We cannot imagine a more unhappy man an an earnest Christian who believes that the churches have apostatized, and that the world again needs the shedding of martyrs' blood to shock nominal Christians into a realization of the hideous nature of modern

It must be admitted that there is a good deal of this sort of talk these days. As a rule, it comes from the country-the big \$10,000-a-year city preachers do not take such a blue view of the situation. There is something in all this worth thinking about. Perhaps it is a good sign. The country is a powerful moral factor, and the city churches will never dare to stray very far from the faith and the practices solidly upheld by the country churches. The cities may fall into erratic ways, but soone for later the country will straighten them out,

#### Mexico and the Negroes.

While certain newspapers and leaders of public opinion in the Piedmont region argue that the negroes are here to stay, and that the two races must make the best of it, it is a significant fact that the whites in the southwest-in the black belt-talk very differently.

The New Orleans Times-Democrat believes that the negro exodus to Mexico, now just beginning, will be a big movement. If the negroes are willing to go across the Rio Grande, and if the Mexican government is prepared to treat them well, our southwestern friends will be perfectly satisfied. Such a movement would, of course, be gradnal. It would not take away our labor supply all at once, and it would prevent negro congestion in any part of the south. The receding black wave of migration would be followed by a wave of white immigration, and the south would in this way be relieved of the pressure of the race problem.

There may be something in this voluntary colonization of the negroes in Mexico, but It is not likely that the transfer of the cotton planting industry, expected by the leaders movement, will ever take place. Whether the negro stays with us or not, King Cotton will remain.

Forests, Floods and Drouths. Dr. Felix Oswald, writing in the North American Review, gives what he calls

"American Auguries." Among other things, he predicts that in the near future arbor festivals will be too popular to be lim-Ited to a single day in the year. ut he also predicts, judging from old-

rld analogies, that the progress of forest area of our farm lands to the necessity of artificial irrigation. Dr. Oswald says that all through the low lands of the southern cotton states, especially in western Arkansas, western Georgia and central Alabama. severe drouths will become a yearly affliction, and he predicts that a considerable portion of southern Missouri and western

Texas will become too dry for agriculture. The effect of stripping the country of its forests is two-fold. The penalty is not only paid in parching and long continued drouths, but in sudden and disastrous floods.

Dr. Oswald must have had the experience of France in his mind when he alluded to the analogies of the old world. One hundred years ago, during one of the many revolutions that have disturbed France, the common people seized on the preserves of the men and destroyed the magnificent forests that had been carefully protected from mutilation,

One of the results of the destruction of these great forests was that in seventeen departments of southern France the agricultural and grazing lands were devastated by the mountain torrents. These floods were followed by disastrous drouths and a very large and fruitful area was impoverished and depopulated.

According to the Boston Herald, which appears to have studied the figures, the cost to France, in actual money, of the foolish destruction of its forests, has already amounted to nearly \$47,000,000, and even yet the effects of the devastation of a cen tury ago have not been removed. The national museum at Washington has on exhibition a collection of photographs which give a vivid illustration of the nature and extent of the devastation wrought in France by the common people during the revolu-

On a smaller scale, perhaps, but still on a scale large enough to attract the serious attention of thoughtful men, the destruction of forests in this country is going on, the impelling motive being the greed for money. Especially is this true of the great forests of the south. Since the war hundreds and thousands of miles of forests have been destroyed, and the destruction is going on more rapidly than ever.

Congress appropriates only \$10,000 for the preservation of the forests of the nation, while it is estimated that \$6,000,000 worth of lumber is yearly stolen from the public domain. The value of the wood consumed in the United States each year is estimated at \$60,000,000,000.

Unless the destruction that is now going on is stayed or supplemented by a wise and far-reaching forestry policy, this country will suffer as France did.

#### Georgia News From Abroad.

The New York Voice, a prohibition organ, publishes a letter from Atlanta asking if prohibitionists should support a move ment now on foot in Georgia to have all the democratic candidates for the legislature pledge themselves privately to vote for a state prohibitory law.

It is gratifying to see the Voice speak out against this alleged scheme. Our contemporary thinks that it would be better to first ecure a majority of prohibition voters be

fore passing a state prohibitory law. But the matter is not worth discussing. Our readers know that there is no such cranky movement on foot. The trick proposed by the Atlanta correspondent would not stand the smallest chances of succeed-

#### Judge Falligant.

It was a fitting thing that such a man as Judge Robert Falligant, of Chatham, should be the first officer elected by the general assembly in the new capitol.

His unanimous election was a substantial testimonial of his worth and fitness for the bench. As a lawyer and a law-maker he has won an enviable reputation in the courts and legislative halls of the state. .

As an accomplished gentleman, of character and culture, he is known to his wide circle of acquaintances throughout the state. We congratulate the general assembly on

A PICTURESQUE WESTERN CRANK who calls himself "Ezra, King of Heaven," has issued the following proclamat on: "Whereas, Certain persons calling themselves the governors of Louisiana and Mississippi have taken it upon themselves, impudently, arrogantly, and without permission, to seek to interpose obstacles in the way of the prize fight between one John L. ment, he is entitled to consideration at the hands of the people. Unless sounthing in his record makes it improper, he should be helped by the people to the place he aspires. In the first seventy four counties that acted, of

thich General Gordon carried about sixty, Goron's majority over Bacon was less than 1,300. A hange of 550 votes would have given Bacon the mination. This slender majority for Governor Gordon was

won after THE CONSTITUTION had givenhim its im-mense influence, and when the best politicians in the state, with Mr. Grady as chairman of the camaign committee, had given him their labors night

Except for these extraordinary circumstances Major Bacon would have been governor four years ago. Every friend who supported him then will support him again, and thousands of Gordon men who fell against him then will be glaat to vote for him now. I am one of that sort.

The state is to become father of all the children within her borders. The natural father is to be reserved of almost all responsibility for the maintenance of his children as soon as they are old enough to know children as soon as they are old enough to know who he is. Not only so, but it is proposed to compel parents to do that which all true parents delight; to do—their duty to their children. Is it mot time now to introduce a bill compelling a man to love his wife? Is it not time to introduce a bill for the relief of mothers by providing wet nurses for their infants? resigned that office on March 1st, and Mr. F. M. Scott was elected in my place.

2. I did not say that the "failure of the Macon company was due entirely to the inefficiency of the men in charge of the mechanical part of the work." In the next paragraph he quotes me as follows: "A shortage in the water supply was what caused the trouble." This is correct, I referred to the inexperience of the men and insufficiency of capital as factors in the troubles of the company. The failure of the water supply, the long delay ingetting the distributing apparatus again at work, Islawed temper a ures to run too high and spedies the goods, and their capital was insufficient to meet the losses and go on with the business. #### Mr. Shlelds's Side.

EDITORS CONSTITUTION: In vesterday's issue of the Journal appeared a sensational article calculated to do me injustice. The article states in substance, that I "was given a check by one, H. substance, that I was given a case by Linch, to collect and turn over the collected money to H. Linch; to collected the check, turned over part of the money, and with the rest bought myself a cow." The charge actually made by Linch is false enough, but this article makes the matter worse than Linch's warrant. The facts are these: Linch was indorser on a note for myself and brother, H. 6. Shields, given about the first of last November, ISSS. We collected the money on the note and turned it over to Linch, after deducting the amount of an account for Iddes furnished Linch. I only turned the excess over to Linch because he agreed to tay the note. He was the maker of the note and entitled to what was collected on it. The only dispute is about the correctness of my account for hides furnished. We simply owe H. Linch a civil debt if he actually paid the note as endorser. The charge that we have committed larceny of any description is faise and without foundation. Parties have no right to coerce a man into paying a civil debt by using the criminal side of

Mr. Charles H. Crankshaw, who has been appointed to prepare a design for an invita-tion, submitted one which found favor at once. On the first page is a drawing of the new capitol as a center piece, with smaller sketches of the capitols at Savannah, Louisville, Mil edgeville and the old capitol at Atlanta in the four corners. On the third page is the coat of arms of Georgia with the words "Dedicato-rial Reception." On the last page the dome of the capitol is seen with a large United United States flag and a large state flag on either side. This will doubtless be the design

accepted. The first business transacted was the appointment of a committee to submit to the meeting the names of the gentlemen to serve on the different committees that would be necessary. The members of this committee Messrs. E. P. Chamberlin, R. F. Maddox, Adolph Brandt, Charles W. Crankshaw, and George W. Adair.

Governor Bullock and the New York Press Press of the 2d shows that Governor Bullock is still manfully maintaining his view that national medng in elections is unwise and unnecessary,

NATIONAL ELECTORAL REFORM. The Press is in receipt of another interesting letter from ex-Governor Rufus B. Builock of Georgia, replying to a recent tenark of this journal on the need of an honest ballot and a fair count. Ex-Governor Bullock is himself devoted to these ideals, but he believes in the let-alone policy, except that he would have congress refuse to accept certificates of election where there was evid nee that the election had been unfree of the count unfair. He thinks this would cure the evils complained of,

and says: Every other device—federal election laws, registration, federal supervisors, federal trueps, etc.— has been tried without results satisfactory to the promoters. Force is not in harmony with free elec-tions or republican institutions, and the reaction in northern opinion against its use in the south was so marked that the politicians were compelled to

abandon it.

It is 'true that various imperfect devices have been tried and found wanting, but this does not after the following two facts:

1. That prevention is better than cure.

2. That the failure of imperfect national election

aws is no argument against the success of wise and oderate national election laws. The Press is anxious to see ballot reform in its two great features of officially printed ballots and unintimidated secret voting extended to national elections, viz: elections of members of congress and of presidential electors. For such elections there should be a set of election officers representing both parties and appointed by the national ing both parties and appointed by the national government, not for purposes of oppression or interference, but for a directly contrary purpose; that of separating national from state and other local elections, so that there would be no excuse for com-

plaining that a state was not allowed to manage its own affairs.

In the judgment of the Press such a system of national ballot reform would be entitled to all the argument which ex-Governor Bullock has used in favor of his plan; for it would not interfere with local self government, and yet it might go as far as was absolutely necessary in asserting the nation's right to self government for itself, for it would simply be the national regulation of a matter of vital national concern.

Anderson, a colored man, and on Monday morning started out for Bish-opville to look for work. On their way to their way to opville to look for work. On their way to town they were met by Ned Williams, a young negro, who bears a very bad reputation, and were decoyed by Ned to his house, where he said they could remain during Saturday, and he could then pilot them on Sunday to a good place to stay until they could obtain work. On Sunday morning Ned Williams went off, ostensibly to see about getting a house for the young couple. His object, however, was to summon four of his comrades—Ed Slater, John Williams, his brother, Tom Charles and Preston Jefferson,

TO AID HIM IN A SCHEME he had planned. The five negroes held a meet ing just outside of Williams's house and in

sight of their victims. A little after dark Williams told the Vonne hite man and his wife that he would now conduct them to the home he had secured for them, and they set out with him, but had only gone about two hundred yards from the house when Ned's four companions jumped on young Daniels and beat him and drove him away. Then the five, with drawn jumped on young Daniels and beat him and drove him away. Then the five, with Crawa pistols, assaulted the woman, each abusing her to his heart's content. The poor creature, half dead, was forced back into Ned Williams's house, and there kept until the next morning, when Williams's wife carried her to the house of Preston Jefferson, and he took her to the house of June Cupid, who resides on O. 2. Scarborough's place. Cupid and his wife and kind colored people, and she remained with them, last night, when the white people of the vicinty got the first inking of the crime.

How Atlanta Suffers for Hospital and Ambulance Facilities-A Wandering Minstrel-Other News

If such a thing were needed, another pracical proof was offered vesterday, showing the necessity of an ambulance service and also of a public hospital in Atlanta.

At eleven o'clock Jeff Hill, an industrious colored man and a preacher among his peo-ple, was digging a well on Luckie street near he technological seminary. He had resched a depth of thirty-five feet and was obliged to send the stones and earth he excavated to the surface in a large tub. A rude windlass had been placed over the mouth of the well, and at this a man was stationed to do the hoisting. at this a man was stationed to do the holsting.

The work was nearly done and Hill stood at
the bottom of the well watching the tub ascend

the surface the rope parted and the tub fell
with tremendous force on the head of the unfortunate man.

chance. There was a crash, then everything in the well was still.

As soon as possible men went down with ropes. They made a sling and hoisted Hill to the surface. He was horribly disfigured and injured. The tub struck him first on the head just above the forehead and then in the chest. He was stretched on the ground and everything possible was done to ease his sufferings until medical aid came. Dr. Jarnigan arrived very soon, but nothing material could be done until he was moved to some place for treatment.

Finally Officer Hunter arrived, He procured a back and this man, lacerated and suffering agonies from internal injuries, was lifted into it. His leg had to be put through the front of the back, in a half lying and half sitting posture—one that must have been the most acute torture to a man with meternal injuries—be was moved through the streets—every joit—and they were many—produced agonized groans. In this way he was taken to police headquarters and from there to Providence infirmary.

The senate did not care to talk about the blair educational bill yesterday, and the regular order, which brought up a resolution touching that measure, was displaced. The members had new business to get in, and call of the roll developed a number of

bills.

Besides the rapid dispatch of business, yesterday's session was distinguished by the introduction of two important bills, one by Senator Bartlett, authorizing the sheriffs, jailers or keepers of jails to decline to receive federal prisoners into their custody, and one by Senator Boyd, to admit female students into the State university and all the branch colleges.

into the State university and all the branch colleges.

It seems that the fail bill, which will be championed in the house by Representative Hardeman when Senator Bartlett gets it through the senate, is the result of the action of Judge Emory Speer, of the federal court in finding Jailer Birdsong, of Macon, fifty dollars for chaining up a violent federal prisoner who was defacing the walls, and by his noisy profanity and obsenity making himself a nuisance. Judge Speer held that the jailer of Bibb county jail, appointed under the law of Georgia, was an officer of the federal court because he had the custody of federal prisoners. Against a fine for contempt there was no appeal, and feeling it insufferable that a citizen of Georgia should have no remedy at law against what he considered an excess of authority by Judge Speer Mr. Bartlett citizen of Georgia should have no remedy at law against what he considered an excess of authority by Judge Speer, Mr. Bartlett has introduced a bill which will put it out of the power of federal judges to exert such a resistless one-man power. A joint interview with Senator Bartlett and Mr. Hardeman gives the details. Senator Boyd's bill seemed to be a surprise to the senate. The senator appears to be in earnest, and he thinks there is no argument that will show why the state should appropriate money for the education of boys without doing as much for the dear girls.

A rather reculiar bill was the one introduced by Senator Whitfield, to prevent the sale of seed cetton between the 15th of August and the 15th of December in Baldwin county. This bill will be of special interest to the cotton-seed-oil mills, as it will affect their supply in that locality. If this policy were generally adopted it would wipe out the oil mills entirely.

The other bills introduced were as follows:

He amused himself by uttering profane and obscene lan-guage, and persuaded his companions in con-finement to cover the walls with tobacco

As Jailer Birdsong's family lives in one side of the jail and the prisoner's ribaldry was plainly audible and exceedingly offensive to them, he went into the cell and remonstrated with the negro. The prisoner, in an insolent manner, said:

manner, said:

"Go to h—ll! I am a United States prisone; you can't do anything with me."

Then the jailer went out and got some policemen and chained the negro to the wall with only a little play of the chain, so that he could not move about and keep such a racket. The negro was compelled to stand up for an hour or so, and Judge Emory Speer, on hearing of it, fined the jailer fifty dollars for contempt of court, holding that the keeper of a jail where federal prisoners were kept, was an officer of the federal court.

Against this fine there was no appeal, and yesterday Mr. Bartlett, who is Mr. Birdsong's counsel, introduced in the senate a bill to authorize the keepers of jails to decline to receive federal prisoners into their custody.

"We felt that Judge Speer had exceeded his authority," said Senator Bartlett, "and as there was no recourse, we shall try to put the inlikeners where when we'le subject to such

authority, said senator bartlett, and as there was no recourse, we shall try to put the jail keepers where they won't be subject to such resistless power by one man. In this instance we think it has been unjustly used. It is true I am Mr. Birdsong's counsel, but I act for him I am Mr. Birdsong's counsel, but I act for him without fee because I think this is oppress

By Senator Wooten, to incorporate the Albany Street Railway company.

The first resolution introduced was the one by Senator Wooten, thanking the capitol commission for its service to the state, and it was honored by a suspension of the rules and an immediate passage. It is as follows:

Resolved: By the senate, the house concurring, that the general assembly, deeming it appropriate to record a suitable recognition of the services of the capitol commissioners, hereby testifies a grateful comment to build its own jails," said Mr. Bartleat, and the general government to build its own jails," said Mr. Bartleat, it is the service of the part of the serving the bill?"

"What is the prospect of passing the bill?"
"There won't be much opposition to it in the senate."
"How about the house?" "We can't tell yet how it will be received," said Mr. Hardeman.

He Voted for Falligant

When the question to be voted on is an ordinary, two-sided affair, it's a comparatively easy matter to tell how the vote of Baker county was east. Hon. Primus W. Jones is the representative from Baker.

The election vester day was completically a The election yesterday was emphatically a one-sided affair. Nobody but Judge Falligant

This fact originated-after the election was all over—a good natured controversy as to how Colonet Jones had voted. The matter was argued at some length, but no conclusion could be reached, and finally the colonel him-celf was appealed. could be reached, and many the coloner man self was appealed to. "Vote," said he, seriously, "I voted for Fal-

"Certain?" "Yes, sir," emphatically, "I voted for Falli-

But to remove all doubt in the case a reference was made to the clerk's list, and the vote
of Baker was found duly credited to Hon.
Robert Falligant for judge of the Eastern judicial circuit.

"There now," said the colonel, "didn't I tell ou! Then, besides, how else could I vote?" The clerk's list is authority in such cases, and as considerable interest, and some doubt, was aroused by the discussion yesterday it is only fair to the colonel that this statement He voted for Falligant.

Judge Robert Falligant.

Another special feature of the proceedings yesterday was the election of a judge for the Eastern judicial circuit.

It was brought up by this communication from the governor:

Executive department, Atlanta, Ga., July 5, 1889. Hon. A. P. Adams, judge of the Eastern judicial circuit, having resigned May 1, 1889, the Hon. Robert Falligant, of the county of Chatham, was appointed and commissioned to fill the vacancy until the meeting of the general assembly. It will therefore devolve upon this legislature to elect a judge for said circuit for the unexpired term, ending January 1, 1893.

The senate concurred in the house resolution for a joint session, and ballot.

tion for a joint session and ballot.

Hon. William Clifton, of Savannah, nominated Judge Robert Falligant. The nomination was seconded by Senator Harris, of the 42nd, and by Hon. J. R. Lamar, of Richmond.

There was no other nomination and the roll call showed 190 votes for Falligant. As soon as this result was announced the joint session was dissolved.

#### TALK OF THE LOBBIES.

Senator Levi Ballard has in the house a senate bill making legal interest binding on usur ous loan contracts, and making the deed or mortgage good to secure the principal and legal interest and no more. Judge Speer, not long ago, decided that good to secure the principal and legal interest and no more. Judge Speer, not long ago, decided that the deeds or mortgages were not valid in usurious loan contracts, and that decision has had the effect to make money lenders wary as to real estate security on country land. Senstor Ballard says his

bill will make land as good security as a government bond. A provision of the bill requires the consent of the wife before the lien shall be valid.

Senator George Whitfield, of Milledgeville, Senator George Whitfield, of Milledgeville, who, by the way, is a lineal descendant of the great preacher of that name, has a bill in naud to introduce which will extend the police power of the keeper of the lunatic asylum over the two or three thousand acres of land in that handsome state-property. Senator Whitfield, it is said, inherits a goodly portion of his great ancestor's eloquence, and he is an interesting talker.

Speaking of the lunatic asylum, he said:
"It would surprise most of the people of Georgia to know that the state has nearly a million dollars invested in that institution. You have to walk more than two miles to go through the halls, and the subterranean passages for ventilation, etc., are hundreds of yards long. A man might get lost in them.

Powell, the physician of the asylum, is finely "Pr. Fowell, the physician of the asylum, is mely equipped for his position. He says there is an alarming increase in insanity in the state. The number of inmates has increased since last October 140, from 1,4-0 to 1,5-0. They come from all sorts of, causes. A great many negroes go insate, from 'religious excitement. The white people from a great variety of causes. Comparatively few women are there on account of comestic unhappiness. There are about 5-9 negroes and the rest are white people."

Senator McCollum, of Dade county, has prepared and ready to introduce, a bill to charter a nauga battlefields. The route is not decided of fully, but the charter will confer the right to build into Waker, Catoosa, Whitfield, Chatrooga, Dade and Floyd counties. The rojectors of the enterprise are Mr. M. Block, a wealthy merchant of Chattanooga, General P. M. B. Young, Judge Joel Branham of Rome, Colonel J. E. Shumate of Dalton, and other prominent gentlemen.

Upon motion of Judge Harrell, of Webster, the house ordered yesterday that 300 copies of the substitute for house blit No. 15, reported by the committee on Western and Atlantic railroad, be printed and distributed as soon as possible.

Mr. Venable, of Fulton, introduced a resolution to have a joint committee appointed—five from the house and two from the senale—to arrange for the saie of the old capitol building.

THAT NEW JAIL.

Sheriff Thomas Talks About the New Build-

The new jail building for United States prisoners is an assured fact, and the work of erecting it will be commenced in a few days. "Of course the new building will not

very elaborate," said Sheriff Thomas yesterday, "but it will meet the object for which it is intended, and will be a great benefit and

is intended, and will be a great benefit and comfort to prisoners who are brought here from the mountamous districts.

"These revenue prisoners, as a rule, are men of cleanly habits, and it almost makes some of them sick to be put in the same prison with the common run of county prisoners. If the two classes of prisoners are separated it will be possible to keep them in much better condition, though it is out of the question to maintain absolute cleanliness among the prisoners sent to jail from the city and county, as they are generally of a very low class, and are seldom confined for sufficient length of time to justify the adoption of a regular prison garb," "How large will the new building be?"

"The proposed building will contain twelve

"How large will the new building be?"
"The pronosed building will contain twelve or thirteen cells and all the necessary conveniences. This will be amply large to accommodate all the United States prisoners. There is one feature of this question which is not generally known, and that is the steady falling off in the number of moonshiners. The business seems to be slowly dying out, partly on account of the vigilance of the revenue officers and partly on account of decreasing

business seems to be slowly dying out, partly on account of the vigilance of the revenue officers and partly on account of decreasing profit. But it seems that while one class decreases the other multiplies, and hence the building of the new jail is necessary.

"I want to say in regard to the jail, that it has not been any more crowded of late than heretofore. In fact, there has frequently been a larger number of prisoners coufined in it than during the past twofor three months, and there has never been any sickness to amount to anything among them. Then, again, there has never been any complaint made of the feeding of prisoners, and the United States district inspector of jails paid a high compliment to the manner in which Fulton county jail was conducted, as compared with others all over the country.

"It is simply to make impossible any future complaints of any character that the new building will be built. The government is anxious to have the best possible care taken of revence prisoners, and this is the only way it can be insured. According to law, it is the duty of the sheriff to take care of all prisoners, both state and United States, and he is directly responsible for them.

"For this reason, as a building could not be secured through any other source, I decided, after consultation with Dr. Chapman and members of the county commission, to provide the building myself, at my own expense.

"I have the privilege of removing it at any time, or will do so at the request of the county

"I have the privilege of removing it at any me, or will do so at the request of the county ssioners, and I also have the right to commissioners, and I also have the right to dispose of it to my successor in office, when-ever he is elected. The expense of the build-ing will not be a dead loss, but I expect to get something back on it in a few years by my contract with the government for the main-tenance of its prisoners." tenance of its prisoners.

As an act of justice to Mrs. G. H. DeJarnette, late principal of the Girls' High school, the undersigned members of the board of education take great pleasure in bearing testimony to her excellence; and ellicities as a teacher, and in stating that her work in Atienta during the year that she was principal of the Girls' High school, was highly satisfactory to us individually, riving evidence of a high degree of culture and great efficiency in all of the qualifications necessary to a teacher in the various departments of study that came under her supervision and control. We take pleasure in stating further, that the election of Miss Sargent to filt the place formerly occupied by her was not intended, in the smallest possible degree, as any reflection upon Mrs. DeJarnette, or as an evidence of any lack of full appreciation of her high degree of worth as a teacher, in every sense of the word. The committee on teachers having reported in lavor of Miss Sargent's election, by a majority vote as we understand, the report was adopted as a whole, without opposition. Had the report been in favor of Miss DeJarnette it would dubtless have been adopted in the same way.

ROCKMART, Ga., July 5 .- [Special.]-The barbecue yesterday was a marked success. There was a large crowd present and dinner

plentiful, which was enjoyed by all.

In the afternoon, at 3:30 o'clock, the match game of ball was called between Rockmart and Cedartown. Both clubs were at their best, Cedartown having imported five professionals from Atlanta and other points throughout the state, while the home club only had three imported men. After the first inning it was seen clearly how the game would go, and by the ninth inning Rockmart had scored 12 runs,

Bride's Father Objected.

When the Rev. Mr. Simmons returned yesterday at noon to his home on South Pryor street he found waiting at his gate a young man and a young woman.

In scarcely audible whispers they told him that their two hearts beat as one and that an unrelenting parent made it necessary that they should be wed without the usual display and correspond.

tied the knot which only the divorce court or death can loose.

Then the newly-made groom told a few facts about himself. He said he was the son of Mr. Henry Williamson, the well-known railroad official who resides at Griffin, and his bride was Miss Temple, of Columbus. For a long while they had loved each other truly, but for some reason, which Mr. Williamson did not explain, Papa Temple was obdurate. He would not hear of a marriage, and even the mention of a courtship made him mad. Finding that no persuasions could soften the storn parent, the young people took the matter in their own hands. Yesterday they met on a train for Atlanta, came here and got married.

ere and got married. Mr. Williamson said he would take his bride mmediately to his father's house and intro-duce her to his family. There he had no doubt they would be received with joy. Then they will go to Columbus to see Mrs. William-son's parents. In accordance with this pre-gramme, the young couple left on the one o'clock train for Griffin. FROM OUR NOTEBOOK.

NEW YORK, July 5.—The stock market was again moderately active today, with the great bulk of business confined to granger stocks, and trusts were more quiet than at any time since their ac-	
tivity began, only lead showing any special unima- tion. There was a weak tone almost throughout the entire day, however, and prices tonight are generally lower than on Wednesday. Prices from	
London this morning were materially higher than our closing figures of Wednesday, showing that that center was not in sympathy with the down- ward movement here, and it was rejorted that	6
large lots of St. Paul had been bought in that mar- ket for American account. This gave a botter tone to opining dealings, and first figures, while quite irregular, were generally higher, and advances ex-	
tended to ½ per cent in the general list. The tempor of the room was decidedly bearish, however, and advocates of bear prices made another demonstration against the list, selecting Atchison as a special price.	
cial point of attack, and the decline in that stock did not cease until a loss of 2 per cent had been scored, and the movement in it did much to shake out the weak holders of other stocks. St. Paul,	-
Northwestern and Mis-ouri Pacific came next to Atchison in point of weakness, and all of the stocks mentioned dropped over 1 per cent before the decline was checked. Liquidation among smaller bulls assumed larger proportions, but the	
that large lines of shorts had been covered, and	1
and in the last hour there was good buying in all portions of the list. The close was quiet but steady at an improvement over lowest pitces. Reading was active, Jersey strong, and Delaware and Huds	-
son weak. In the unlisted department lead was still active; but there was no movement except in sugar, which opened up a fraction higher and then declined over 2 per cent, but recovered and closed	-
only a fraction lower. Final changes show considerable irregularity, but declines are n. at numerous and Atchison lost 1½ and Delaware and Hudson 1 per cent, while Jersey is up 2 per cent. The sales	-
aggregated 275,000 shares.  Exchange quiet but steady at 487560489. Money easy at 367, closing offered 3. Bubtreasury balances: Coin \$154,150,000; currency, \$21,010,000, Governments dull but steady: 48 12856; 4548 10656. State

WESTERN AND ATLANTIC RAILEOAD.	NEW YORK, July 5[Special.]- Henry Clews

NEW YORK, July 5.—[Special.]— Henry Clews & Co.'s chronic on the cotion market today says: During the early part of the week there was a decidedly good feeling in cotion, and, the indications being so favorable to a healthy rise, there was large buying for both long and short account. On Wednesday, however, the market experienced a severe schack on receipt of the first hale of new cotion, and, although Liverpool continued firm, the pressure of long cotton coming out in tiffs market sent the prices of the early months down thirteen points; and at the close today they are near the lowest point of the week. Liverpool reported sales of 10,000 bales of spot cotton today, the market having a hardening tendency. Futures were up 2-64 to 3-64, and at the opening there was a gain of four to six points in our market, but the long cotton, especially August contracts, has been coming out all day. At the close July and August are four to five points below Wednesday's prices, while the late

cially August contracts, has been coming out all day. At the close July and August are four to five points below Wednesday's prices, while the late months, on unfavorable reports from Texas, are one to three points higher. Spot cotton is quiet and firm at 11½ for middling. Sales, 1,156 bales.

NEW ORLEANS, July 5—[Special.]—Glenny & Violett. In their cotton circular today, say: Liverpool seems to have taken an independent position, and closed 2-64ths better and firm. New York, however, after advancing soveral points, commenced to decline and the bears apparently concentrated their Torces on August, which declined eleven points there from the highest today, closing steady at four points lower on August than last night. New Orleans closes steady at one to two points higher on far months and unchanged on August. There was a strong demand for new crop months the early part of the day kere, owing to unfavorable crop accounts, especially on account of rain. The short interest here in July and August is in bad shape, as the better grades of spots were advanced 1-16th, whereas the lower grades were unchanged, which puts deliveries of cotton on contract to a disadvantage. Spots here are steady; sales 1,150 bales; midding 10 15-16.

#### WHITEOCK RELEASED

THE BOND IS COMPLETED AND THE PRISONER II TAKEN LOME.

Motions for New Trials in he McCord and Wilby Cases Postponed—No Courts in Session—Several Suits Filed—The Sperid's Convention.

None of the coarts were in assion yester-

Judge Richard H. Clark held a short ses-5th at chambers, but did not pass upon any of the motions which were set for hearing yesterday.

Two motions for new trials were to have been heard, but on account of Solicitor-Gen-eral Hill's absence from the city they were both postponed until the 20th of the present

These cases were those against Charles Wilby, for seduction, and against McCord,

for perjury.

Judge Richard Clark has quite a number of criminal cases set for the latter part of next week. After hearing these eases, he will take up the docket of Douglas superior court on July 15.

Two Suits Filed. Two suits were filed in the superior court

yesterday.

Incy Johnson appealed, through her attorneys, for a total divorce from her husband, Charles Johnson, on the ground that he is a habitual drunkard, and frequently uses her very cruelly. She asks that the court allow her permanent alimony, and states that Charles is a barber and earns about thirty-five dellers for mouth.

Charles is a barber and earns about thirty-need dollars per month.

A damage suit for \$10,000 was entered against the Clifton Chemical and Phosphate company by Alexander Johnson. Johnson was an employe of the defendant company, and in his petition claims that he had his thigh mashed while on top of a box car, and in the performance of his duty.

The Sheriffs' Convention.

Interest in the convention of sheriffs, which will assemble at the courthouse on next Wednesday, is steadily increasing, and it is expected that the meeting will be one of great benefit to sheriffs all over the country.

Governor Gordon yesterday notified Sheriff L. P. Thomas of his acceptance of the invitation tendered him to deliver an address before the convention during its session. Other important addresses will be made, and the convention will doubtless result in great good.

The purpose of the meeting is to better perfect the means of capturing and transporting prisoners, and to adopt measures for better cooperation among the sheriffs.

All the railroads have offered low rates to delegates, and from present indications a large number will be in attendance. The Sheriffs' Convention.

A Railroad Sued. Suit has been filed against the East Tennessee, Virginia and Georgia Railroad company for \$5,000 damages. Lawrence Haywood is the plaintiff. He claims that on Japuary 27th he had his thumb mashed off and sustained other injuries, while in the discharge of his duties as a car coupler, at McDonough.

OUT ON BOND. Mr. Whitlock Completes His Bond and is Released

Mr. M. T. Whitlock is again at liberty.

He has been in jall since the 26th of April, and at half past ten o'clock last night was released under a three thousand dollar bond.

a three thousand dollar bond.

Judge Jitichard Clark fixed the bond last
Wednesday, after being convinced by good authority that release was essential to Whitlock's health.

The prisoner was in the castody of Depaty Sheriff
Green. No trouble was had in obtaining two
names to the bond, but the others were not forthcoming until late yesterday evening.

The boydesmen are L. M. Harrison, J. C. Cummings C. P. Johnson and A. J. Moses,
As soon as the bond was made, Deputy Green
gave the order for Whitlock's release, and several
of his friends went to the jall with a carriage and
took him to his home.

A motion for a new trial is now pending, and

The Iollowing receipt now in the hands of Dr. Amos Fox tells its own story:

ATLANTA, Ga., July 5, 1889.—Received of Amos Fox, treasurer, Atlanta Council, No. 169, Royal Arcanum, three thousand dollars, in full of benefit cert fleate, No. 70,288, being the amount of insurance on my late husband's life, who died in Atlanta, Ga., June 10th, 1889.

MRS. AUGUSTA J. PUTNAM.

The Last of All. The luneral of Mr. J. E. Crook, the young man who killed himself Thursday, took place yesterday morning from the residence of J. A. Barry, 93 Washington street, at ten o'clock. Only a few of the family and their most intimate friends were present. The sad circumstances which attended Mr. Crook's death made the ceremony especially solemn. There were no palibearers. MISCELLANEOUS.

About July 1 the Ph. H. Postell Mill Company will start their new mill just completed at Moscoutab, and the new machinery just placed in the old mill will also be ready for operation by that time.

After that date we will be able to fill all orders for Postell's flour promptly. After Thursday of this week we can fill orders for Piedmont Patent and Moscoutab Star, but the orders for Elegant will have to wait a little long-We return our sincere thanks to our customers for their patience. We will ship fast as flour is received. There never was such a demand for Postell's flour before. The sales in Atlanta are three times larger than last year, and from New York to New Orleans the demand has been unprecedented. Orders from New York City for a thousand barrels of Elegant at a time had to be declined only because the demand has been so great.

The new wheat flour will meet the highest expectations. "We continue to press for the highest mark," says Mr. Postell, and the most magnificent flows either for pastry, cake or

Watermillionorwatermelonstheyareonice.

Reader, what is more delightful than an ice-cold thoroughly ripe, red meat watermillion? We say "watermillion" because we are advised by a great daily that this is correct. In any event, it is delightful, melon or million. We are disposed to beieve, though, that millions of melons will be bought and sold this season in Atlanta, and we want to put the public on notice that we are better prepared to deliver, free, large, fine, fresh, ice-cold melons than any house in Atlanta. We must have it understood that if you buy melons from us that they will be cold-taken right off the ice. Now, it you intend buying a melon, you might as well buy a cold one. We charge no more for them, and you have the satisfaction of knowing that if you buy on c from us that it is just as you would have it, for there is no more pleasant eating than a cold, icecold Georgia melon. Now, as to quality and variety. At all times they will be fresh. We will have on hand the "Kolb Gem," "Jones's Sweet," the favorite "Rattlesnake," "Augusta's Sugarloaf," and almost any kind you may want, and remember they at all times will be ice-cold. So, now we have posted you, you are in possession, of facts that will give you pleasure and save you money. We have just received another invoice of fresh cracked wheat, rye flour, oat meal, A, B and C sizes; white wheat Graham flour, and all cereals made by that prince of manufacturers, Ferdinand Schumacker. Just received, also, more fresh compressed yeast-Fermentum. Send us stamps and we will mail you what you want. Don't forget our ice-cold water-HOYT & THORN, 90 Whitehall,

#### A BLOODY TRAGEDY.

DAN ALSTON STRIKES ALEX. WILSON A FATAL BLOW AT LITHONIA.

Left Weltering in His Blood in the Middle of the Street, the Young Scotchman is Taken Home and Remains Unconscious Until Death Comes-The Coroner's Investigation and the Result.

There was a bloody tragedy at Lithonia yesterday morning. About 12:30 Alex B. Wilson, a young Scotch-

man, was stabbed in the head with a knife. The burden of the testimony is that the knife was in the hands of Dan Alston. Very little attention was paid to the affair, which was the result of a street brawl, until

the young man Wilson died at six o'clock vesterday morning. Then an investigation was begun. The appearance of the wound indicated that it was

made by a knife, and a lady, Mrs. Morrison, went to the scene of the murder, and found a clasp knife covered with blood in the grass

the renewal the rencounter.

The knife was a "hawkbill." or as the Scotch people call it, a "hedge knife," and was identified as being similar to the knife carried by Dan Alston, and used in his work.
Another bloody weapon was discovered near
the scene of the tragedy. It was a heavy piece
of hickory, the handle of a "mash hammer," used by the quarrymen. It is a little over two feet long, and like the knife, was covered with blood and hair when found in the grass and weeds by the roadside.

One or both of these weapons caused the death of Wilson.

ARRESTS MADE.
As soon as the death of Wilson became voiced abroad, Deputy Sheriff Jenkins went in search of the perpetrators of the crime. Dan Alston, who has been running an en-gine for S. H. Venable & Co., Will Pease, timekeeper for the same firm, Dan Leddy,

and a man named Copeland, a stonecutter, were arrested.

The four men were in the crowd when the crime was committed.

When arrested, at the house of Mr. Van De-

timekeeper for the Southern Granite company,

Griffe, where he boarded, Alston asked how Wilson was, "He is very low," answered the officer,

"and may die." "I hope, G-d d-n him; that he will die," replied Alston, "for he struck me in the mouth last night."

When informed that the victim was dead, Alston made no comment, and remained quietly in custody of the officers.

quietly in custody of the officers.

THE STORY OF THE CRIME.

On the 4th there was a general holiday at Lithonia. DeKalb being a prohibition county, two kegs of beer, a lot of pickles and other stuff had been ordered from Atlanta, and Alston, Pease, Leddy and Copeland were among the party of ten or fifteen who had prepared to enjoy themselves.

Leddy remarked that "These d—d fools down here don't know how to celebrate the Fourth of July, and I will show them."

The party had a lot of cannon poppers, and they proceeded to the residence of Mayor W. H. George, about ten o'clock, and began to fire them. Mayor George went out and induced them to leave.

In about three-quarters of an hour the party returned and began cutting up again.

The mayor got his pistol and went out and drove them off. But they were bent on a frolic, and they set out with the determination to take in the town.

THE TROUBLE BREWING.

Going up Stone Mountain, street, they ston-

take in the town.

The trouble brewing.

Going up Stone Mountain street, they stopped at the home of Mr. Scraggy, where there was a ball in progress.

Alston blew out the lamp and it was relighted. He blew it out the second time, and when remonstrated with, he grabbed a gun which was sitting in the house, which was wrenched out of his hands by a Scotchman.

Will Pease induced him to leave the house, but he had received either a real or imaginary insult from a stone cutter named Jim Murray, and going in by the back door, he struck Murray with a bottle.

After a considerable molec the party left Mr. Scraggy's house and walked up the street in the direction of the place where they boarded.

Scene of the tragedy.

About half way between the home of Mr. Jack Langford and the railroad they met a party returning from some entertainment.

It was a little after midnight.

Somebody said that Alston had knocked Murray on the head with a beer bottle.

"It was a dirty trick if he did it," remarked Alex. Wilson, who was in the crowd.

"I am the man who did it," replied Alston, and in a moment the two men were engaged in a sendle.

There were sounds of desperate blows.

It was thought that Wilson was killed with a blow from the hammer handle, but the wound was a stab in the left side of the head, half an inch broad and an inch and a half deep, penetrating the brain.

There was no contusion except the slight swelling right around the wound. The hole corresponded with the size of the knife blade, and there was no bruise or abrasion to show that the dead man had been struck with the mish handle of the hammer.

ACTION OF THE SCCTCHMEN.

On the 2:45 train Solicitor Candler, Hon. Albert Cox, representing Leddy, Colonel Hf C. Jones, representing Alston, Dr. Trotter, of Decatur, a relative of Alston, and a number oe others went down to Lithonia to assist in the investigation. Everybody was excluded from the jury room except the jurors and witnesses: Before the inquest an effert was made to see Alston, but his counsel objected, saying that there had been several general statements already made.

there had been several general statements already made.

It was learned, however, that Alston has been at Lithonia about five months. He has kept quiet and attended to his business. He has been somewhat addicted to drink, but has behaved himself very quietly around Lithonia. He is a son of the late Colonel R. A. Alston, and was thirty years old last April.

Leddy, Pease and Copeland are men who generally attend to their own business, and it is thought that they are innocents of any complicity in the unfortunate affair, except that they were with Alston when the killing occurred.

A COMMITTEE OF SCOTCHMEN.

that they were with Alston when the killing occurred.

A COMMITTEE OF SCOTCHMEN.

A committee of Scotchmen, consisting of Messrs. Jones, Campbell, Colin McPhail, and John Sey, waited on The Constitution representative, and said that they had been appointed by the Scotch people of the town to inform the press that Wilson was a quiet and law-abiding citizen, the senior member of the firm of Wilson Bros., who run a quarry of their own near the town. Wilson's father was among the first settlers at Lithouia, and the family are law-abiding Scotch people.

Wilson was about thirty-twoyears of age, and was the only unmarried man of the trio.

The committee also wished to state that, while they wanted the law carried out to the letter, they did not propose to encourage any illegal mothod of seeking justice, although the people of the town felt like a most unjust crime had been committed. They proposed to abide the verdict of the jury.

Wilson lived with his parents, who are elderly people, and he has led a very exemplary life. He was guilty of no vices, and was wrapped up in his business.

THE INQUEST.

At 4 o'clock yesterday afternoon Coroner

At 4 o'clock yesterday afternoon Coroner Gentry, acting on the advice of Solicitor General Candler, summoned a jury and decided to allow neither atterneys for the prosecution nor the defense to be present during the investigation.

HE OBEYED ORDERS.

An Episope in General Neal Dow's Military Career. From the Washington Post.

We have forgotten where this episode of the war took place, and the gentleman who related the tory to us several years ago is now beyond our each. But it is good history and ought to be recorded. Perhaps some reader may be able to supply the names and dates which we omit. The federal and confederate forces were preparing for a battle. The federal commander and his staff, seated upon their horses, were consulting pear.

staff, seated upon their horses, were consulting near stain, seated upon their noises, were consulting near the right of the line drawn up in the edge of the woods, General Neal Dow was standing in front of his command, a very small man with a tremen-dously big hat on his head and a monstrous sword dangling to the ground at his side, a picture such as one seldom sees outside the comic collections. An side told General Dow (repress he was only Colonal aide told General Dow (perhaps he was only Colonel Dow then) that the commander wished to see him General Dow strode down the line, the soldiers laughing at the sight.

"General Dow," said the commander, "you will march out into that open yonder, take a position on that knoll and hold it until turther orders"—something to that offen

thing to that effect.

In sight of the entire right wing of the army Gen-

eral Dow went marching into the opening, his long, heavy sword clanking on the ground behind him, his big hat making him look like a gra-shopper under a tondstool. The commander heard the army laughing and looked for the cause.

"Who is that walking across the opening?" he asked. "That is General Dow," said everybody.

An aide was sent to bring him back, "General Dow," said the commander, "why did you go out there alone? Why did you not take your command with you?"
"Dear me, General," said Dow, "I beg a thousand pardons. I did not know you meant for me to take anybody with me. You didn't say so, you know."
